

Metal base for wireless battery-powered Zigbee® switch, 60 x 71 mm, screw fixing

552-72020

4 year warranty

Metal base for mounting a wireless battery-powered Zigbee® switch (552-7201X) in a flush-mounting box, 60 x 71 mm, with screw fixing. The base includes a safety protection cover.

This article is protected by at least one patent (application). For more info on patents, see www.niko.eu/innovation.

Technical data

Metal base for wireless battery-powered Zigbee® switch, 60 x 71 mm, screw fixing.

- Fixing method
 - with screws for simple fixing in a flush-mounting box with grip surfaces
- Centre-to-centre distance
 - Simple and quick assembly of one or more mechanisms by the indication (chalk line, laser, etc.) of the centre of the flush-mounting frame
 - vertical coupling centre-to-centre distance 60 mm by sliding several bases into each other, they lock themselves automatically
 - vertical coupling centre-to-centre distance 71 mm using pre-formed lips at the bottom, by folding the lips downwards over a length of 1 mm, the bases support each other and the centre-to-centre distance is guaranteed.
 - horizontal connection of multiple bases is quick and perfect thanks to the folded-up dovetails on the left and right sides
 - extra robustness due to the folded-up edges on the outside of the base and the continuation into the inside of the base
- Dimensions (HxWxD): 71 x 73 mm
- Marking: CE
