

# Presence detector P48LR, DALI-2, master, 32-37 m, for flush mounting (SnapFit), Wieland gesis® 2 x 2 m cable with 5-pol. connectors, white

353-751421 -4

4 year warranty

This presence detector is a DALI-2 master for DALI lighting control in up to four dimmable zones. It can be overridden either via 230 V push buttons or via wireless and battery-free Bluetooth® push buttons. The detector settings can be modified using the Niko detector tool app and 2-way Bluetooth® communication. The SnapFit mounting system guarantees fast and stable installation. The detector is premounted with 2 cables and 5- and 6-pole female connectors that are each unique, which helps to avoid installation errors and save time. The P48 DALI-2 master detector enables the following lighting control solutions in hallways, corridors, offices, classrooms and meeting rooms:

- Human Centric Lighting (HCL)
- tunable white
- scenarios
- multi-zone for a board light/smart board
- wireless master/master link for adjacent areas control

Use the P48 DALI-2 master detector's internal relay in combination with a distribution box (353-7081X) to enable the following lighting control functions:

- HVAC control in combination with distribution box 353-70811 to accommodate the integration of HVAC systems
- Control of non-dimmable ON/OFF lighting with distribution box 353-70812
- Standby minimisation of DALI luminaires in combination with distribution box 353-70813 to save energy
- Control of non-dimmable luminaires externally on the DALI bus with distribution box 353-70816

The detection range can be extended with P46 DALI-2 secondary detectors with a 2 meter cable and a connector. Mind the maximum guaranteed current on the DALI bus. Use distribution box 353-70814 to divide the power distribution to the DALI luminaires over two circuit breakers and achieve a higher security of supply.
