

Presence detector, 230 V, master, 2 channels, 24 m, IP54, for surface mounting, white

350-20082

4 year warranty

Master presence detector with increased detection range, 2x external switch input, full and semi-automatic mode, two potential-free switch outputs to switch 2 conventional lighting strips or 1x lighting plus 1x HVAC. The lux level (lux) can be freely chosen for each channel (lighting or HVAC). Range extension with up to 10 secondary detectors.

Finishing colour: white

Compatible secondary detectors: 350-20071, 350-20079, 350-20081

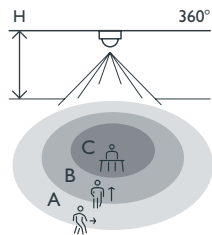

- Simple mounting
- Low power consumption (0.2 W)
- Splashproof (IP54)
- Large detection zone with a diameter of 24 m, from a height of 3 m

For use in offices, school buildings, cafeterias, etc.

- Can be set up as a presence or an absence detector
- Is fitted with an eco switch-off function, which allows the user to save time by overriding the switch-off delay and turning off the lighting when leaving the room. This function can also be disabled, for example in (public) premises where the user cannot turn off the lighting as a safety measure.
- Has multiple adjustable parameters: the switch-off delay, the lux value at which the lighting must turn on and the sensitivity
- Offers two configuration options: manually on the device or via the IR remote control (optional)
- Includes a lens cover mask to divide the detection zone. The cover mask can be adapted according to the desired detection range.
