Niko Intense sterling

Niko designs

Belgian quality, pure design

Innovation, design and ease of use. These are the cornerstones for Niko's product development. **Intelligent solutions** increase your **comfort** and **ease of use**. So you know within seconds which button commands which device. The sleek shapes and refined details of our switching material are your perfect partners in making a **design statement**. Besides, you can't beat **Belgian quality**.

Timeless and sustainable

The Niko finishes give you a **timeless design**, produced in **durable materials**. You choose the range that best matches your style. Would you like to change your switches after a few years? Easy: just replace the flush surround plates with new finishes and colours. The universal flush-mounting mechanism goes with any finish in Niko Pure, Niko Intense or Niko Original. Combined with the surface-mounting kit, this switching material can also be used for walls. Finally, there is Niko Hydro, specifically designed to withstand demanding and damp environments.

Endless combinations

Combine the colours of the surround plates and devices to your liking. It's all up to you, down to the smallest detail. You can match socket outlets, switches, dimmers and media connections perfectly. Whether you go for a single combination throughout your home, or different ones in every room.

4-year warranty

The legal warranty period for switching material is 2 years. But with Niko you opt for the best quality. Every product we make is thoroughly inspected at every step in the production process. That is why we offer you a 4-year warranty. On all our products.

Niko Pure steel white

Your home, your style

Contemporary, retro or industrial: whichever style you choose, you want your socket outlets, switches, media connections and other functions to be perfectly coordinated. That is why with Niko Pure, Niko Intense, and Niko Original, we offer you the choice between 3 ranges of switching material.

Niko Pure steel black

Niko Pure

Do you love an **ultra-sleek design** in timeless materials? Then you will love the refined look of Niko Pure. A series made from special, authentic materials such as bamboo, stainless steel, Bakelite and aluminium. Your guarantee of an elegant and sustainable finish. Top design, made affordable.

A timeless and elegant trend

A contemporary switch for a home with innovative design?

It's hard not to lose yourself in the high-gloss **Niko Pure liquid black** finishing. The endless deep black colour of this contemporary switch stands out most in a minimalistic and technological environment.

A matt black switch without compromising on style or affordability?

Niko Intense matt black is a finishing as black as the night and is the darkest shade in the range. The design is characterised by an intense black colour and a stylish matt texture. Elegant and timeless, but most of all versatile.

Niko Pure steel white

White. Subtle yet striking.

White. Subtle yet striking. A blank page at first but multi-faceted in texture and material. The white switches and sockets from Niko complement the design aesthetic of any room without overwhelming the viewer. Use Niko's minimalist white switches to create maximum impact in any setting.

Pure and timeless

Niko Pure steel white, is a multi-faceted switch produced from enamelled white steel. Whether you are an aficionado of Scandinavian design, industrial, boho or even rustic style in your interior, the Niko Pure steel white is the perfect touch in any room.

Contemporary luxury

The bright-white shine of the **Niko Pure liquid snow white** adds a touch of luxury and contemporary design to any interior. This stylish and trendy switch is perfect in fresh, modern interiors, but is by no means limited to these settings.

Subtle and iconic

Niko Intense white, a matt white switch that exudes simplicity, lightness and purity. With its sleek design yet subtly curved front panel, this switch proves that white can also be intensely warm.

Brilliant white

Niko Intense lunar white, a brilliant white new finishing in the Niko Intense range, which fits perfectly in modern interiors. The combination of the subtly curved design of Niko Intense and the striking white colour of the lunar white finishing creates an intense look with a warm character.

Controls

No matter which control you are looking for, you will find it at Niko. Combine devices such as switches, USB chargers and dimmers **in the colours you love**. For example, the roll-down shutter controls or an eco-display can be perfectly matched to your switches and socket outlets. For each room a custom finish that fits nicely with its furnishings, of course this is also possible.

Niko Original light grey

Niko designs electr(on)ic solutions to enhance buildings to better suit the needs of the people who live and work in them. By using less energy, by improving light comfort and safety and by making sure all applications work together seamlessly. Buildings with Niko are more efficient, are controllable from a distance and interact within bigger ecosystems. Niko is a Belgian family business from Sint-Niklaas with 700 employees and 10 European branches.

At Niko, there is one question that keeps us busy every day: “How can we enhance buildings to better suit your needs?”
