Niko Hydro

Safety, comfort and design in every type of weather

niko

Niko Hydro

Bring the indoors outdoor

An outdoor socket outlet under your carport, a light switch on the wall of your shed or an audio connection on the patio? Meet Niko Hydro, a range of switches, sockets and data connections that are certified splashproof (IP55). This means they can be installed wherever you like. Whether it is outside on your terrace, in your laundry room, or even around your swimming pool.

Designed to withstand wet weather and occasional splashes, Niko safely powers your outdoor environment without compromising on comfort or style. No matter which switch or socket outlet you're looking for, you'll find them all in the Niko Hydro range — in black, white or grey.

Bring the indoors outside with Niko Hydro, without compromising on safety, comfort or design.

switches and sockets
for indoor use

Easy to install, easy to use

Whether you're working with walls or open spaces, Niko Hydro allows you to safely install your switching material wherever you need it. Even when drilling a hole in the wall isn't an option, or no walls are available. Every Niko Hydro product can be surface-mounted, flush-mounted, or incorporated into a free-standing garden post.

The Niko Hydro range offers a wide array of functions that can be installed anywhere in your garden or on your terrace. This includes 16 A switches, socket outlets, signalling devices, bike charging stations, and key switches. Thanks to a sleek adapter frame, you can even safely install data connections and USB chargers outside.

Whatever your setup is, you will find a solution that blends seamlessly into any environment, combining functionality with design. This flexibility makes it easier than ever to bring the inside outdoors.

Choose your wall mounting

All Niko Hydro products can be easily flush-mounted or surface-mounted on your walls. Choose the colour - black, white, or traditional grey - and the function that works best for your environment. Each solution accomodates up to two (flush-mounting) or three (surface-mounting), making it ideal for running multiple appliances at the same time.

Flush-mounting boxes

Installation in stone walls and panels

Surface-mounting boxes

Installation on any type of wall

Niko Hydro garden post

Electricity in the garden is no longer a luxury. Power your robotic lawn mower, garden lights, or electric tools effortlessly with the Niko Hydro garden post. Holding up to three functions, it combines durability with modern design. Its grey, white, or black colours and stainless-steel design match any garden, patio, or driveway.

Looking for a more basic option? The Niko Hydro garden post essential with double sockets offers an accessible solution for anywhere in your garden.

Garden post with spike

Mounting with spike

You can easily install the Niko Hydro garden post in outdoor areas with soft surfaces such as grass or flower beds, thanks to a spike that can be driven into the ground.

Garden post with base plate

Mounting with base plate

For outdoor installations on hard surface areas such as terraces, patios or driveways, the Niko Hydro garden post comes with a base plate that can be fixed to the ground.

Niko Hydro garden post essential

Enjoy easy power access in your garden with two pre-wired horizontal socket outlets. Place it in soft subsoil, such as grass or flower beds. Ideal for charging tools, remote working in the garden, or connecting lights.

Product overview

Flush-mounting boxes

Reference number				Product
grey	white	black	suffix	description
700-	701-	761-	73000	Splashproof single flush-mounting box for one function
700-	701-	761-	74000	Splashproof double vertical flush-mounting box for two functions
700-	701-	761-	75000	Splashproof double horizontal flush-mounting box for two functions

Surface-mounting boxes

Reference number				Product
grey	white	black	suffix	description
700-	701-	761-	83101	Splashproof single surface-mounting box with two single flexible inputs for one function
700-	701-	761-	83201	Splashproof double vertical surface-mounting box with two single flexible inputs for two functions
700-	701-	761-	84101	Splashproof single surface-mounting box with one M20 input for one function
700-	701-	761-	84102	Splashproof single surface-mounting box with one double M20 input for one function
700-	701-	761-	84111	Splashproof single surface-mounting box with two single M20 inputs for one function
700-	701-	761-	84112	Splashproof single surface-mounting box with one double M20 input and one single M20 input for one function
700-	701-	761-	84151	Splashproof single surface-mounting box with one M20 input with cable gland for one function
700-	701-	761-	84152	Splashproof single surface-mounting box with one double M20 input with cable glands for one function
700-	701-	761-	84161	Splashproof single surface-mounting box with one M20 input with cable gland at the top and bottom for one function
700-	701-	761-	84162	Splashproof single surface-mounting box with one double M20 input with cable gland and one single M20 input with cable gland for one function
700-	701-	761-	84201	Splashproof double vertical surface-mounting box with one M20 input for two functions
700-	701-	761-	84202	Splashproof double vertical surface-mounting box with one double M20 input for two functions
700-	701-	761-	84211	Splashproof double vertical surface-mounting box with two single M20 inputs for two functions
700-	701-	761-	84212	Splashproof double vertical surface-mounting box with one double M20 input and one single M20 input for two functions
700-	701-	761-	84302	Splashproof threefold vertical surface-mounting box with one double M20 input for three functions
700-	701-	761-	84352	Splashproof vertical threefold surface-mounting box with one double M20 input with glands for three functions
700-	701-	761-	84251	Splashproof double vertical surface-mounting box with one M20 input with cable gland for two functions
700-	701-	761-	84252	Splashproof double vertical surface-mounting box with one double M20 input with cable glands for two functions
700-	701-	761-	84261	Splashproof double vertical surface-mounting box with one M20 input with cable gland at the top and bottom for two functions
700-	701-	761-	84262	Splashproof double vertical surface-mounting box with one double M20 input with cable gland and one single M20 input with cable gland for two functions
700-	701-	761-	84801	Splashproof double horizontal surface-mounting box with one M20 input for two functions
700-	701-	761-	84802	Splashproof double horizontal surface-mounting box with one double M20 input for two functions
700-	701-	761-	84851	Splashproof double horizontal surface-mounting box with one M20 input with cable gland for two functions
700-	701-	761-	84852	Splashproof double horizontal surface-mounting box with one double M20 input with cable glands for two functions
700-	701-	761-	84902	Splashproof threefold horizontal surface-mounting box with one double M20 input for three functions
700-	701-	761-	84952	Splashproof horizontal threefold surface-mounting box with one double M20 input with cable glands for three functions

Belgian craftsmanship at its finest

Niko Hydro is a testament to our long-standing tradition of Belgian craftsmanship. All products are made in Belgium, from cutting and bending stainless steel to powder coating and assembly. By keeping design and manufacturing local, we uphold our commitment to delivering the quality and durability Niko products are known for — making them easy to install, use, and trust.

Enjoy a 4-year warranty

At Niko, we stand by the quality of our products. That's why our switching materials exceed the standard two-year legal warranty, offering a four-year guarantee. All products undergo rigorous inspections at every stage of production, ensuring peace of mind with every purchase.

Niko designs electr(on)ic solutions to enhance buildings to better suit the needs of the people who live and work in them. By using less energy, by improving light comfort and safety and by making sure all applications work together seamlessly. Buildings with Niko are more efficient, are controllable from a distance and interact within bigger ecosystems. Niko is a Belgian family business from Sint-Niklaas with 700 employees and 10 European branches.

At Niko, there is one question that keeps us busy every day: “How can we enhance buildings to better suit your needs?”
