

DIN-rail module with unshielded RJ45 connector UTP Cat. 6A, for the central mounting of an RJ connection point in the connection cabinet

650-14571

4 year
warranty

This DIN-rail module with unshielded RJ45 connector UTP Cat. 6A is used to centrally mount an RJ connection point in the connection cabinet. This connection point is used to make a network connection with 1 device for telephone, Ethernet, IP or internet applications. The DIN connector is connected in a star configuration to the mechanism using a cable of the same performance type. This provides a central overview of all connection points throughout the entire residence.

Technical data

DIN-rail module with unshielded RJ45 connector UTP Cat. 6A, for the central mounting of an RJ connection point in the connection cabinet

- Protection degree: IP41 for the combination of a mechanism, central plate and faceplate
- Impact resistance: The combination of a mechanism, a central plate and a faceplate has an impact-resistance of IK06
- Marking: CE
