

Splashproof garden post with spike for a single Niko Hydro function, grey

700-36810

4 year warranty

The garden post can hold one Niko Hydro function of your choice. It has an IP55 protection degree and is equipped with a spike that needs to be driven directly into the earth. Its functional and beautiful design makes the garden post a perfect fit for outdoor areas, such as on terraces and in outdoor kitchens. Moreover, the entire unit is splashproof, which makes it extremely well-suited for use in damp areas and in ammonia-rich environments. Please note that the adapter frame XXX-85000 must be used to build 45 x 45 mm functions, such as data modules, telephone sockets, audio connections and TV/FM sockets, into the garden post.

Technical data

Splashproof garden post with spike for a single Niko Hydro function, grey. Handmade product: small deviations in form may occur
