

# Aluminium corner profile, 2 m

**340-12004**

**4** year  
warranty

This protective profile is suitable for LED strips with monochrome, tunable white, RGB or RGBW LEDs. It is made of anodised aluminium, with a length of 2 m, and can be sawed to the required length. The profile is designed to easily fit an angle of 90°. It can be mounted with glue or with screws which you slide into the rear of the profile. You can place a milky white cover (340-13004) or a transparent cover (340-13005) on this profile.
