

Flat aluminium profile, 2 m

340-12001

4 year
warranty

This protective profile is suitable for LED strips with monochrome, tunable white or RGB LEDs. It is made of anodised aluminium, with a length of 2 m, and can be sawed to the required length. The height of the profile is only 6 mm, allowing it to be discreetly and easily flush or surface mounted. You can place a milky white cover (340-13001), a transparent cover (340-13002) or a lens cover (340-13003) on this profile. The profile can be mounted with screws, with glue or with the optional mounting brackets (340-14022).
