

Wieland gesis® distribution box, ON/OFF, P48 DALI-2

353-70812

4 year
warranty

This distribution box supports control of non-dimmable luminaires. It can be used in combination with P48 DALI-2 master detectors with two Wieland gesis® cables and connectors. Extend your installation with distribution box 353-70814 to divide the power distribution to the DALI luminaires over two circuit breakers and achieve a higher security of supply. External connectors for 230 V power supplies, 230 V push buttons and 230 V non-dimmable luminaires are included. Each connector is unique, which helps to avoid installation errors and save time.

Finishing colour: black

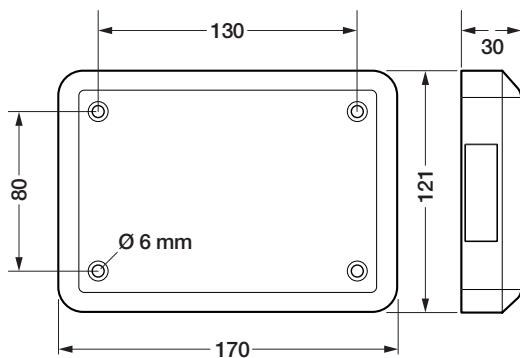

Technical data

Wieland gesis® distribution box, ON/OFF, P48 DALI-2

- Ambient temperature: -40 – +85 °C
- Protection degree: IP20
